Two Famous Ladies Discuss Republican Campaign

Mrs. Henry Ford, wife of the automobile magnate, and Mrs. Edward Everett Gann ("Dolly" Gann), sister of the Vice-President Curtis, are seen as they engaged in a political discussion at a recent luncheon in Detroit, Mich., which was given for Mrs. Gann by women Republicans. Mrs. Gann has given for Mrs. Gann by women Republicans. Mrs. Gann has given for Mrs. Gann by women Republicans. Mrs. Gann has given for Mrs. Gann by women Republicans.

Planning Their Antarctic Expedition

Lincoln Ellsworth, noted Arctic explorer, and Bernt Balchen, the well-known flier, who are planning an expedition into the Antarctic regions next year in a specially designed plane, are pictured at the airport at Inglewood, Cal., where they recently met to inspect their new plane.

Stoking Their Way Through College

Here is one means of earning your way through college. These two young men, students at Western Reserve University in Cleveland, Ohio, are two of a group who defray their college expenses by stoking the boilers in the engine room. They are Russell Christensen and George Berwald.

Speed Driver Rounding Dangerous Curve at Perilous Angle

This striking picture shows a racing car driven at tremendous speed by Tommy Newton, as it skidded at a perilous angle round a curve in a recent race at Burbank, Cal. Newton made this dangerous curve in similar fashion fifteen times during the race without accident.

Triplets Named for Roosevelt

Here are three newly arrived Democrats. These triplets, children of Mr. and Mrs. James Henry of Pittsburgh, Pa., were born just before Gov. Franklin Delano Roosevelt, Democratic candidate for president, arrived in the city on his campaign tour, and were immediately named Franklin, Roosevelt and Dela (the last named being a girl). Their father is an unemployed and disabled veteran.

Giving Broadway Crowds a Thrill

Advertising her act at a vaudeville theater in New York City, Tiny Kline, girl daredevil, is seen above as she slid by her teeth down a cable stretched 1,134 feet across Broadway at a height of 600 feet. After successfully accomplishing her stunt, she was placed under arrest for violating a city law.

Altogether an "Ideal" Match

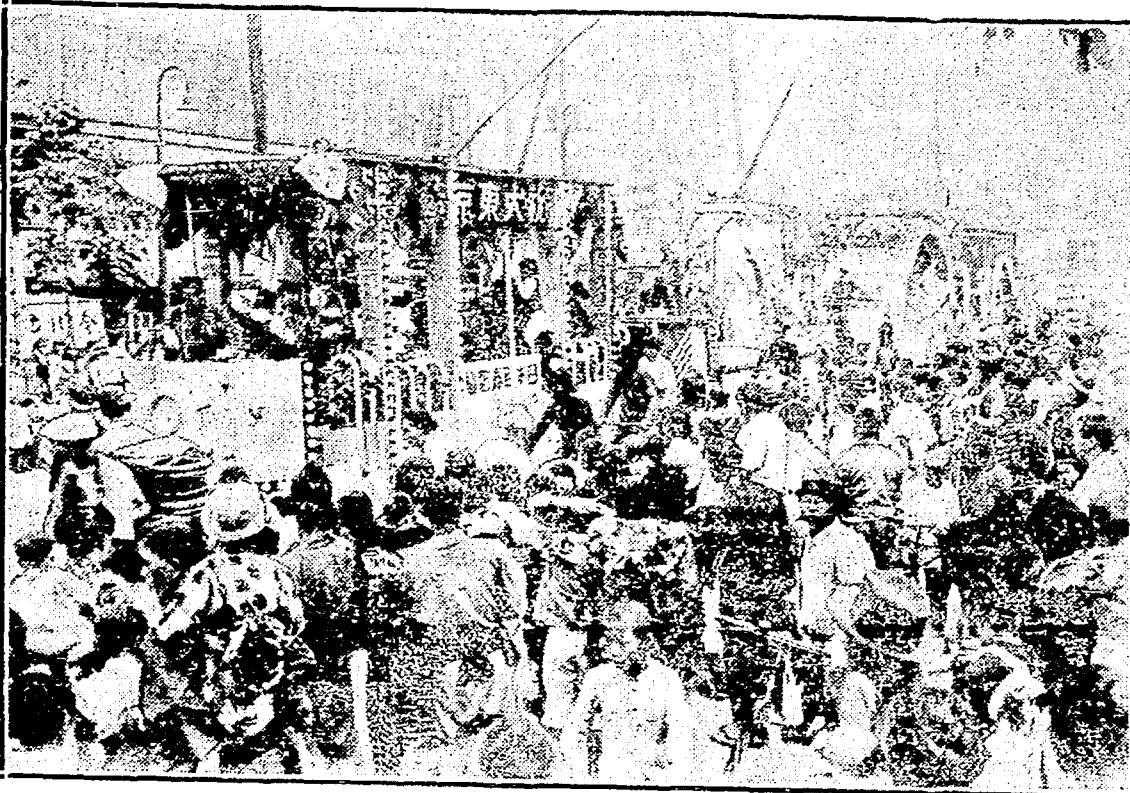

Miss Ruth Wenter, who was chosen last year as the "most beautiful co-ed" at Northwestern University, and Paul Cummins, who was voted the "ideal man" by campus sororities, have announced their engagement. The "ideal" couple (above) are pictured at Evanston, Ill.

Accidental Nominee

Vic Meyers (above), a Seattle, Wash., orchestra leader, was nominated for Mayor by a newspaper as a joke. The stunt netted so much publicity that Meyers recently paid \$50 to enter the race for the Democratic nomination for Lieutenant Governor. To his astonishment, he finished ahead of a field of seven candidates! Now Meyers will almost certainly be elected.

Celebration As Tokio Became World's Second Largest City

When Tokio, Japan, recently became, by official count, the second largest city in the world in point of population, the populace staged a colorful demonstration to celebrate the event. Crowds are seen here thronging the streets to watch a procession of picturesque floats.

Members of D.A.R. at Lafayette's Tomb in Paris

Members of the Daughters of the American Revolution are seen in Paris as they laid wreaths on the tomb of General Lafayette. The delegation went abroad to place a tablet in Fehring Hall in memory of the French soldiers who gave their lives for the American cause in the Battle of Yorktown.

Won \$7,500 Bet

Betty Compton, well-known musical-comedy actress, is pictured as she arrived in New York City on her return from a trip to Europe. Interviewed on her arrival, she stated that a famous check for \$7,500 which she had received indirectly from ex-Mayor James J. Walker of New York had been in payment of a bet, but she did not reveal its nature.

Husband Threatened

The Countess Margit Bethlen, above, wife of the former premier of Hungary, Count Stephen Bethlen, had only just arrived in this country when she received the news of an assassin's attempt to knife her husband in Budapest. She is pictured shortly after her arrival in New York.

This Little Gadget Removes Particles From the Eye

Being demonstrated in the picture above is the world's largest electromagnet used for medical purposes. It is designed to extract steel objects from the eye and other parts of the body with a minimum of laceration. Dr. John Green, professor at the St. Louis University School of Medicine, is seen giving the first clinical demonstration of the magnet.
